

Model	VM-D4048
controller	
processor:	64 Dual Core Processor
cache :	2GB
Array channel :	48
Disk interface :	SATAI,SATAII
Hot Swap	Yes
RAID level	RAID0 , 1 , 5 , 6 , 10 , 50,JBOD,Hot-Spare
Network Interface:	4-8 , 10M / 100M / 1000M Ethernet interface
Power Supply:	Redundant power supply
operating system	Windows , Linux , Solaris , HP-UX , AIX,MacOS
Protocols	Video stream Transport protocol/ISCSI/NFS/CIFS/FTP/HTTP/AFP
software	
management style :	The GUI based on web , Support for multiple devices unified management
software management:	RAID/Storage virtualization/Networkvirtualization /Monitoring tools/system log/Error
General	
Dimensions :	430×397×690
Capacity:	1620
Environmental requirements	
Working temperature:	Working : 0°C-40°C , stored : -20°C-70°C
Working Humidity:	Working : 20%-80%RH(non-condensing) stored : 5%-90%RH(non-condensing)
	Product certification
	CCC,FCC,CE

### Features

- Support RAID 6
- 64 - bit dual core processor
- Support IE browser configuration
- 4 RJ-45port(10/100/1000Mbps)
